SHARVANI SHIVAPRAKASH

Interaction Designer | Product Designer | UX/UI Designer

Bengaluru, India | +91 86605 19388 | sharvanishivaprakash@gmail.com
Portfolio: sharvanicreates.work | LinkedIn: linkedin.com/in/sharvanishivaprakash

PROFESSIONAL SUMMARY

M.Des Interaction Design student at NID Bengaluru with a B.Sc. in Molecular Biology, seeking a graduation project in interaction or product design. Brings user research, prototyping and usability testing to apps, dashboards, gesture interfaces and physical computing.

EDUCATION

Master of Design (M.Des), Interaction Design 2025 – Present
National Institute of Design (NID), Bengaluru

Bachelor of Science (B.Sc.), Molecular Biology 2024
University of Mysore | CGPA: 8.6/10

DESIGN PROJECTS

ANDAAJ | UX Research & Prototyping · *UI/UX*

- Conducted 22+ user interviews with women from their late 30s to 60s, plus contextual inquiry and competitive analysis.
- Synthesized findings via stakeholder mapping and triangulation into personas and journey maps.
- Translated insights into user flows, information architecture, wireframes and Figma prototypes.
- Led usability testing with 7 women aged 30–58, resolved gaps and recorded a pilot SUS score of 82.
- Designed the brand identity: logo, character illustration, iconography and motion graphics.

SENSE-LO | Dashboard UX · *Data Visualization*

- Transformed complex environmental and numerical data into clear visualizations that support decision-making.
- Designed mobile screens and a laptop dashboard, with a D3.js and GSAP data meter showing conditions at a glance.
- Defined personas, user flows, IA and reusable components; extended the concept to retail and spatial experiences.

TIME WANDERERS | Multimodal Interaction · *Museum Experience*

- Created a gesture-based museum experience connecting children with historical artifacts through storytelling.
- Developed storyboards and gesture maps; configured Kinect face and gesture recognition for ergonomic spacing.
- Built a working p5.js prototype played by 10+ people; tested with 2 children and added accessibility adaptations.
- Leveraged Antigravity, Google Flow and ElevenLabs for AI-assisted coding, visuals and sound.

JANAPADA BHOOMI | Physical Computing · *Tangible Installation*

- Engineered a working phygital (physical–digital) installation, exhibited at NID and tested by 30+ visitors.
- Mapped Arduino touch-sensor inputs to digital responses, sound and cultural storytelling.
- Produced visuals in TouchDesigner and prepared laser-cutting files.

PROFESSIONAL EXPERIENCE

Design Intern | Checko Sep 2024 – Mar 2025

- Designed 50+ creatives (social posts, ads, animated article covers) in Figma, Canva and Procreate.
- Applied B2B brand strategy and visual identity to strengthen company visibility and LinkedIn engagement.
- Analyzed social and event analytics, B2B research and industry trends to create live event ad creatives.
- Curated branded stands, desk displays and banners for industry meetups and expos.
- Collaborated with marketing, development and content teams.

SKILLS

User Research: User Interviews, Contextual Inquiry, Competitive Analysis, Personas, Journey Mapping, Synthesis, Ecosystem Mapping
UX/UI: Interaction Design, User-Centered Design, User Flows, Information Architecture, Wireframing, Dashboards, Design Systems
Prototyping & Evaluation: Interactive Prototyping, Usability Testing, Iteration, SUS, Accessibility
Emerging Tech & Visual: Gesture-Based Interfaces, Physical Computing, Data Visualization, AI-Assisted Prototyping
Brand & Visual: Visual Design, B2B Branding, Iconography, Motion Graphics, Social Media Analytics
Creative Tools: Figma, FigJam, Miro, Canva, Adobe Illustrator, Photoshop, After Effects, Premiere Pro, Procreate
Code, Hardware & AI: p5.js, D3.js, GSAP, TouchDesigner, Arduino, Kinect, Antigravity, Google Flow, ElevenLabs
Languages: English, Hindi, Kannada
